Encls: Analys reports (01 Nos)

Yours faithfully

30/04/26

Assistant Commissioner,
(Food Safety)

Nahana, District Sirmaur, H.P

FORM VII A
(Report of the Food Analyst)

Report No. 1408

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Ms. Priyanka Kashyap, Food Safety Officer, Distt. Sirmour (H.P) a sample of "Sapphire Truffle Confectionery" bearing Code No. and Serial No. NHN-979 of the Designated Officer of Distt. Sirmour (H.P) on 02.01.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "Sugar boiled confectionery" falling under regulation No. 2.7.1 of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (analysis started on 02.01.2026 and completed on 13.01.2026) and the result of its analysis are given below:-

Analysis Report:

(i) Sample Description:-

The contents of the sample received in a sealed original pack.

(ii) Physical Appearance:-

Free from dirt, insects, larvae, rodent hair & excreta, mould growth and other extraneous matter.

P.T.O

Sr. No.	Quality Characteristics	Name of the method of the test used	Results	Prescribed Standards (a) As per Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011 (b) As per label declaration for proprietary food
1.	Test for the presence of dirt, insects, larvae, mould growth, rodent excreta and other extraneous matter	SOP037/01/26.07	Negative	Negative
2.	Ash insoluble (in dilute Hydrochloric acid)	FSSAI manual for analysis of beverages (coffee, tea, cocoa, chicory) sugar and sugar products & confectionery products A5:2015	0.049%	Not more than 0.2%
3.	Test for ACM	FSSAI manual for additives 4.2:2016	Carmosine	With or without permitted natural colours and permitted synthetic food colours
4.	Ash sulphated (on salt free basis)	FSSAI manual for analysis of beverages (coffee, tea, cocoa, chicory) sugar and sugar products & confectionery products A4:2015	0.73%	Not more than 2.5%

Opinion:- The labelling of the sample of "Sapphire Truffle (Confectionery)" contravenes Regulation no. 5.1 (a) labelling requirement under The Food Safety and Standards (labelling and Display) Regulations, 2020 as as name of the food does not indicate the true nature of the food contained in the package. Hence, this sample of "Sapphire Truffle (Confectionery)" is **misbranded**

Signed this 15th day of January, 2026
