 Cum Designated Officer  
 MC Shimla, Distt Shimla

**FORM VII A**  
**(Report of the Food Analyst)**

**Report No.044**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "Rusk (Packed)" bearing Code No. and Serial No. MCS- 849 of the Designated Officer of M.C., Distt. Shimla (H.P) on 20.04.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "Rusk" falling under regulation No. 2.4.15:2 of Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (analysis started on 21.04.2026 and completed on 29.04.2026) and the result of its analysis is given below:-

**Analysis Report:**

(i) Sample Description:-

The contents of the sample received in a sealed original pack.

(ii) Physical Appearance:-

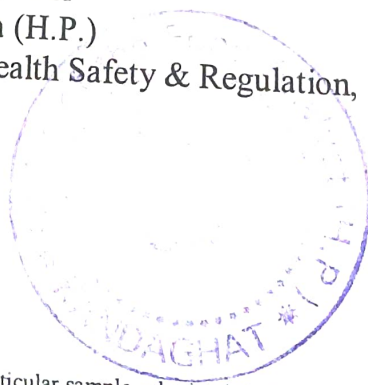

Free from dirt, insects, larvae, rodent hair & excreta, mould growth and other extraneous matter.

| Sr. No. | Quality Characteristics                                                                                  | Name of the method of the test used | Results  | Prescribed Standards :-<br>(a) As per Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011<br>(b) As per label declaration for proprietary food |
|---------|----------------------------------------------------------------------------------------------------------|-------------------------------------|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.      | Test for the presence of dirt, insects, larvae, mould growth, rodent excreta and other extraneous matter | SOP037/01/26.07                     | Negative | Negative                                                                                                                                                                            |
| 2.      | Moisture                                                                                                 | FSSAI 03.006:2023                   | 2.81%    | -----                                                                                                                                                                               |
| 3.      | Ash insoluble in dilute hydrochloric acid (on dry basis)                                                 | FSSAI 03.012:2023                   | 0.05%    | Not more than 0.2%                                                                                                                                                                  |
| 4.      | Acidity of extracted fat (as oleic acid)                                                                 | FSSAI 03.026:2023                   | 0.83%    | Not more than 1.5%                                                                                                                                                                  |
| 5.      | Added colouring matter                                                                                   | FSSAI 03.032:2023                   | Negative | With or without permitted natural colours and permitted synthetic food colours                                                                                                      |

**Opinion: -** The labelling of the sample of "Rusk (Packed)" contravenes Regulation no. 5.1, 5.2, 5.3 5.4, 5.5, 5.6, 5.7, 5.8, 5.9, 5.10 & 5.14 labelling requirement under The Food Safety and Standards (labelling and Display) Regulations, 2020 as Name of the food, list of Ingredients, Nutritional information, declaration regarding Veg or non veg, declaration regarding food additives, name and complete address of manufacturer or marketer or packer, FSSAI logo and License number, Net Quantity, retail sale price, Consumer Care details, Lot/Code/Batch identification, manufacturing & Use by/ Expiry date and declaration regarding food allergens are not mentioned on the label..Hence, this sample of "Rusk (Packed)" is **Misbranded**.

## **FORM VII A**

### **(Report of the Food Analyst)**

#### **Report No.045**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "plain Cake (Packed)" bearing Code No. and Serial No. MCS- 850 of the Designated Officer of M.C., Distt. Shimla (H.P.) on 20.04.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "Proprietary Food" falling under regulation No. 2.12 of Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (started on 21.04.2026 and completed on 23.04.2026) and the result of its analysis is given below:-

#### **Analysis Report:**

##### **(i) Sample Description:-**

The contents of the sample received in a sealed original pack.

##### **(ii) Physical Appearance:-**

Free from dirt, insects, larvae, rodent hair & excreta, mould growth and other extraneous matter.

| 10      | Test for presence of ACM                                                         | FSSAI manual for additives.4.2.2016                                                                                              | Sunset yellow & Tartrazine | Absent                                                                                                                                                                              |

**Opinion:** - The labelling of the sample of "Shakkar (Packed)" contravenes Regulation no. 5.1, 5.4, 5.5, 5.6, 5.7, 5.8, 5.9, & 5.10 labelling requirements under The Food Safety and Standards (labelling and Display) Regulations, 2020 as Name of the food, declaration regarding Veg or non veg, declaration regarding food additives, name and complete address of manufacturer or marketer or packer, FSSAI logo and License number, Net Quantity, retail sale price, Consumer Care details, Lot/Code/Batch identification, manufacturing & Use by/ Expiry date are not mentioned on the label. The sample of "Shakkar (Packed)" contains added colouring matter sunset yellow & Tartrazine whereas it is not allowed in the same. This is in contravention to Section 3.1(z)(viii) of chapter 1 of The Food Safety and Standards Act, 2006. Hence, this sample of "Shakkar (Packed)" is **Misbranded & unsafe**.

### **(Report of the Food Analyst)**

#### **Report No.055**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "Poha (Packed)" bearing Code No. and Serial No. MCS- 853 of the Designated Officer of M.C., Distt. Shimla (H.P.) on 22.04.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "Breakfast Cereal" falling under regulation No. 2.4.35 of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (analysis started on 23.04.2026 and completed on 30.04.2026) and the result of its analysis is given below:-

#### **Analysis Report:**

##### **(i) Sample Description:-**

The contents of the sample received in a sealed original pack.

##### **(ii) Physical Appearance:-**

Free from dirt, insects, larvae, rodent hair & excreta, mould growth and other extraneous matter.

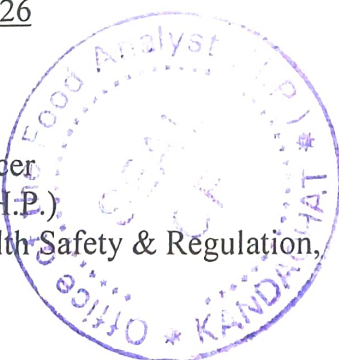

**P.T.O**

**(Report of the Food Analyst)**

### **Report No.056**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "Sabudana (Packed)" bearing Code No. and Serial No. MCS- 854 of the Designated Officer of M.C., Distt. Shimla (H.P.) on 22.04.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "Tapioca Sago" falling under regulation No2.4.14 (2) of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (started on 23.04.2026 and completed on 27.04.2026) and the result of its analysis is given below:-

### **Analysis Report:**

#### **(i) Sample Description:-**

The contents of the sample received in a sealed original pack.

#### **(ii) Physical Appearance:-**

Free from dirt, dust, insects, rodent excreta and other objectionable extraneous matter.

## **FORM VII A**

**(Report of the Food Analyst)**

### **Report No.057**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "Amritsari Badiyan" bearing Code No. and Serial No. MCS- 855 of the Designated Officer of M.C., Distt. Shimla (H.P) on 22.04.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "proprietary food" falling under Regulation No. 2.12 of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed (started on 23.04.2026 and completed on 08.05.2026) and the result of its analysis is given below:-

### **Analysis Repor**

#### **(i) Sample Description:-**

The contents of the sample received in a sealed original Pack.

#### **(ii) Physical Appearance:-**

Free from dirt, dust, insects, rodent excreta and other objectionable extraneous matter.

**P.T.O**

| 9.     | Butyro-Refractometer reading at 40°C                                             | FSSAI 01.088:2022                   | 42.0     | 40-44                                                                                                                                                                            |

**Opinion:-**The sample of "Dahi Loose" does not conform to the standards laid down under Regulation No. 2.1.13 of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011 with respect to milk fat content. Hence, this sample of "Dahi (Loose)" is **Substandard**

\*Since class of milk is not mentioned, the Standards prescribed for Dahi prepared from mixed milk shall apply.

| 6.      | Added colouring matter                                                                       | FSSAI manual for additives .4.2:2016 | Absent   | Absent                                                                                                                                                                              |
| 7.      | B.R. reading of extracted fat at 40°C                                                        | FSSAI 01.088:2022                    | 48.55    | 40-44                                                                                                                                                                               |

**Opinion:-**The sample of "Paneer Loose" does not conform to the standards laid down under regulation No. 2.1.16 of The Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011 with respect to B.R. reading of extracted fat at 40°C & the sample also contains sugar whereas it shall be free from added sugar. Hence, this sample of "Paneer Loose" is **Substandard**.

## **FORM VII A**

**(Report of the Food Analyst)**

### **Report No.0219**

Certified that I, Ripu Daman Kumar duly appointed as Food Analyst under the provisions of Food Safety and Standards Act, 2006 (34 of 2006) for Himachal Pradesh received from Dr. Sunil Sharma, Food Safety Officer, M.C., Distt. Shimla (H.P.) a sample of "Starch Powder" bearing Code No. and Serial No. MCS- 860 of the Designated Officer of M.C., Distt. Shimla (H.P.) on 26.05.2026 for analysis.

The condition of seals on the container and the outer covering on receipt was as follows:-

The sample is properly sealed and fastened and that I found the seal intact and unbroken.

The seal fixed on the container and the outer cover of the sample tallied with the specimen impression of seal separately sent by the Food Safety Officer.

I found the sample to be "proprietary food" falling under regulation No. 2.12 of Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011. The sample was in a condition fit for analysis and has been analysed started on 26.05.2026 and completed on 05.06.2026 and the result of its analysis is given below:-

### **Analysis Report:**

#### **(i) Sample Description:-**

The contents of the sample received in a sealed original pack.

#### **(ii) Physical Appearance:-**

Free from insects, larvae, rodent excreta, mould growth and other extraneous matter.

| Sr. No | Quality Characteristics                                                                                                  | Name of method of test used         | Results  | Prescribed Standards :-<br>(a) As per Food Safety and Standards (Food Products Standards and Food Additives) Regulations, 2011<br>(b) As per label declaration for proprietary food |

| 5.     | Total Ash (on dry matter basis)                                                                                          | FSSAI 03.011:2023                   | 0.058%   | -----                                                                                                                                                                               |
| 6.     | Starch (on dry basis)                                                                                                    | FSSAI 03.024:2023                   | 99.46%   | -----                                                                                                                                                                               |
| 7.     | pH                                                                                                                       | FSSAI 03.050:2023                   | 5.80     | -----                                                                                                                                                                               |
| 8.     | Alcoholic acidity (expressed as H <sub>2</sub> SO <sub>4</sub> ) with 90 percent alcohol, percent by mass, Not more than | FSSAI 03.015:2023                   | 0.087%   | -----                                                                                                                                                                               |

**Opinion:-** The labelling of the sample of "Starch Powder" contravenes Regulation no. 4.1, 4.3 & 4.7 General Requirements & 5.4, 5.6, 5.7, 5.9, & 5.10 Labelling requirements under Food Safety and Standards (Labelling and Display) Regulations, 2020 as the labeling information is not given as required under the regulation and content on the label are not readily legible, the labelling is misleading as it claim it as Arrowroot powder in one place and starch powder in the other place on the label, declaration regarding Veg or non veg, complete address of the manufacturer/packer/marketer, FSSAI logo and License Number, Lot/Code/Batch identification and expiry or Use by date are not mentioned on the label. Hence, this sample of "Starch Powder" is **misbranded**.
